The Collegiate Recovery Program (CRP) provides an environment that supports the therapeutic and educational needs of students in recovery from addiction. The CRP is a collaboration between the University Counseling Service and Student Wellness through the Division of Student Life. The CRP offers a supportive community, professionally trained staff, a dedicated recovery space, recovery meetings, and Recovery Ally training for students and departments on campus.

**IT’S A GROUP EFFORT**

**Success, Not Excess**  
A safe and supportive group for UI students hoping to make changes in their alcohol or other drug use. This is a drop-in group that meets Thursdays at 4:00 p.m. via Zoom.

**Recovery Ally Training**  
This training provides an overview of addiction and recovery, teaches participants how to use people-first language, and demonstrates how to use empathy to cultivate skills for supporting students looking to make changes to their substance use.

**Student Advisory Board**  
The CRP student advisory board is group of students who are interested in leading recovery efforts on campus. Students involved make the CRP a student-led initiative, and advocate for students in recovery on campus.

**ALCOHOL HARM REDUCTION PLAN**

The CRP is part of the larger university-wide plan to reduce high-risk drinking. High-risk undergraduate drinking has decreased significantly at the University of Iowa due to its 10-year commitment to alcohol harm reduction.

**Metrics of Success 2009-2019**

<table>
